Have You Adapted Your Antibiotic Prescribing Approach for Telemedicine?

Join the AHRQ Safety Program for Telemedicine: Improving Antibiotic Use!

Join a NO COST, cutting-edge program to improve patient safety and antibiotic use in telemedicine

Benefits of participating

- Learn evidence-based strategies from nationally-renowned experts in telemedicine diagnosis and antibiotic prescribing
- Earn CEU/CME and ABIM MOC points
- Improve efficiency and patient satisfaction with antibiotic prescribing in YOUR practice with scripting for live and patient portal interactions
- Perform better on antibiotic-related quality measures (HEDIS, MIPS)
- Practices participating in a prior similar program saw a 9% decrease in antibiotic prescribing overall and a 15% decrease for acute respiratory infections2
