PRESIDENT'S MESSAGE - Laura Blaisdell, MD, MPH, FAAP

Happy November! In a month where we intentionally give thanks, there is much to be grateful for. This fall found our patients attending in-person school, returning to some semblance of normal, which was critically necessary for many. We too, as providers for children, are finding our schedules moving back to pre-pandemic normal. The MAAP continues its good work advocating for early childhood interventions, access to care for mental and oral health and substance abuse and nascent work on gun safety for all Maine’s children (amongst a myriad of other important topics).

While we acknowledge there is much to be done to better the lives of our patients and children - there is time this month to pause, take stock and give thanks for all that has been accomplished and acknowledge the foundational effort of people who came before us.

We offer tremendous thanks for the life of a great pillar of our pediatric community, Dr. Jan Pelletier, who reached her journey’s end on October 23rd. Our pediatric community is indebted to her; so many of us were touched by her humor, humanity and ever-present encouragement. As we mourn, we pledge to carry on her great work– endeavoring to keep spark in all we do, in her honor.

May you have a wonderful Thanksgiving– whether with family or caring for patients, may you have a moment to reflect and find gratitude. ~ LLB

Janice Pelletier, MD
Fearless Leader
Beloved Colleague
Champion for Children

Educational Offerings - Maine AAP

TREAT ME (Treatment Recovery Education Advocacy for Teens with SUD in ME) Learning Collaborative has launched - Registration is open!
Dr. Amy Buczkowski, a pediatric specialist at Barbara Bush Children’s Hospital and member of the Maine AAP Board of Directors, has been awarded the Special Achievement Award for her work in bringing the Maine AAP’s social media presence to a new level and improving communications.

When asked to share what she enjoys about her work with the social media platforms, Dr. Buczkowski stated, "Working with the Maine AAP on its social media platforms has been super fun! It is a new way to engage with the Chapter membership and promote issues that we care about as a Chapter."

Clink the link below to read the full interview with Dr. Amy Buczkowski regarding her ongoing work to improve communications, the Maine AAP’s social media presence and her experience as a member of the AAP.

Let's Talk about Obesity Care Podcast

Launched last fall, this series of podcasts from Let’s Go! focuses on thought-provoking and informative conversations to support medical providers interested in obesity prevention and treatment. Dr. Carrie Gordon is the podcast host and has spoken with several experts on topics including anti-obesity medications in primary care, food insecurity and its connection to health, physical activity and physical literacy, and more.

LISTEN HERE

Pediatric Psychiatry in the Primary Care Setting

Using the ECHO model, participants present a real (anonymized) case to the specialists—and each other—for discussion and recommendations. Participants learn from one another, as knowledge is tested and refined through a local lens. With an "all teach, all learn" approach, the knowledge-sharing model brings together specialists from multiple focus areas for a robust, holistic approach. This continuous loop of learning, mentoring and peer support is what makes ECHO unique, with a long-lasting impact.

Media Influences on Physical, Mental and Social Health

December 14, 2022 7:30-8:30 am via Zoom

The potential links between young people’s media use and their health and well-being came to the forefront during the covid-19 pandemic. Actionable recommendations will be provided for clinicians to help them address the digital wellbeing of their patients.

REGISTER HERE
Learning Collaborative Applicant Interviews are Starting!

The Collaboratives will include a series of videoconference learning sessions and coaching sessions with 10-12 primary care teams from across the country, quality improvement training, ongoing mentoring for coaches in your organization, technical assistance, and access to web-based tools.

MORE INFORMATION

Tobacco Treatment Training and Education Offerings

Advice and assistance from a healthcare professional remains a powerful tool for helping tobacco users quit and these patients should be offered assistance at each healthcare visit.

The MaineHealth Center for Tobacco Independence provides a variety of tobacco treatment trainings and education programs for providers and health professionals. Learn more about current opportunities at CTIMaine.org/Education.

Download the Treating Tobacco Together: Training Offerings Schedule | View Upcoming Webinar Opportunities | Sign-Up for the CTI newsletter list to get the latest training information. CTI provides education and training on evidence-based tobacco treatment to healthcare, behavioral and public health professionals in Maine on behalf of the Maine Center for Disease Control, Department of Health and Human Services.

Benefits of WIC to Share with Patients

WIC is open to anyone living in Maine, including migrants working in Maine. Applicants can be any of the following:
• Women and birthing parents who are pregnant, breastfeeding, chest feeding, or had a baby in the last six months.
• Infants and children up to the age of five, including adopted and foster children.
• Non-birthing parents or guardians may apply for their children.

Services include Healthy Foods, Nutrition Education, Breastfeeding/Chest feeding Supports and referrals to other services. WIC improves Health Outcomes in families by early identification and referral for suspected hypertension, reduction in low birth weight and premature labor. Babies born to a mother using WIC are 33% less likely to die in 1st year of life.

New Tobacco Control Advocacy Toolkit

Pediatricians serve as trusted messengers and advocates in conversations regarding regulation of tobacco products. Check out the new, comprehensive New Tobacco Control Advocacy Toolkit from the AAP, with resources for advocates working on key issues around pediatric tobacco use and exposure. Each section includes a brief overview of the issue area, advocacy resources, advocacy opportunities and, where applicable, parent-facing resources.

Other AAP Resources

• Fall 2022 AAP Advocacy Report - Summary of recent federal and state advocacy activities.
• Refresh Infection Prevention and Control Measures with PediaLink course, “Infection Prevention and Control for Pediatric Clinics.” Additional resources can be found in the CDC online toolkit.
• New Children with Medical Complexity Page on AAP.org - Information on care improvement initiatives and practical clinical resources.
• Conversations About Care Podcast: A Conversation on Eliminating Race-based Medicine - Listen to the latest podcast episode from the AAP Institute for Healthy Childhood Weight “Going Beyond Race: A Conversation on Eliminating Race-based Medicine.”

New Bright Futures Resources
