A free retreat for children with life – threatening illnesses and their families

## 2022 Program News!

*The 2022 program will include Camp Sunshine at Home and in-person Family Camp programs!*

**In Person Family Camps:** Join us for a free family getaway to our beautiful lakeside campus and let us provide the fun. New for this year, Family Camp programs offer the opportunity to enjoy all the fun of Camp Sunshine, together as a family! You'll have time at the waterfront and indoor pool, arts and crafts, archery, mini golf, and more! As this is a year for parents and children to celebrate the summer season together in a fun vacation-style model, Camp will run mixed diagnosis programs with fewer numbers of families. **Attendance is limited to families of children who are not immunosuppressed and who live in the Northeast and Mid-Atlantic states. Other COVID – related precautions include but are not limited to vaccine requirements.** [APPLY TODAY!](#)

[Click here or scan the QR code above for complete details including eligibility requirements & applications!](#)

**Camp Sunshine at Home:** The Box of Sunshine program is for families who are unable to participate in a Family Camp this year. We'll send all the materials you need for arts and crafts projects, games, and more right to your home to enjoy whenever you like. This year's space – themed Box of Sunshine will truly be "out of this world!"
